PROFILE SUMMARY

Motivated and detail-oriented fresher front-end developer With hands-on experience in HTML, CSS, JavaScript, and responsive web design, I have successfully completed multiple projects, including e-commerce sites, portfolios, and clones of popular websites. My strong understanding of web development principles, combined with my commitment to continuous learning, allows me to deliver high-quality, functional, and modern web applications. I am now seeking an opportunity to contribute to a dynamic team and help build exceptional digital experiences.

EDUCATION

Amity Global Institute(Singapore)

Diploma in Business Management
2018 – 2019

Annamalai university

Computer Science Engineering
2013– 2017

- SQL/MYSQL
- MERN
- JAVA SPRING
- REACT
- NODE. JS
- EXPRESS. JS
- NoSQL/MONGO DB
- JAVA
- VS Code
- GIT HUB
- Eclipse
- MS OFFICE SUITE

SOFT SKILLS

- Problem solving
- Communication
- Team Collaboration
- Time Management

PROJECTS

Weather App(React, Axios, Tailwind CSS, OpenWeather API)

- Developed a weather forecasting app using React and Axios to retrieve real-time weather data from the OpenWeather API. Integrated dynamic search functionality allowing users to check weather conditions for any city globally.
- Designed an intuitive and responsive UI with Tailwind CSS. Implemented error handling for seamless user experience. The app displays temperature, weather description, and city details.

Udemy Clone(Html, Css and Java Script)

- The Udemy Clone project is a web application that replicates the core features of the Udemy platform.
- Key features include a responsive design to ensure compatibility across devices, detailed course listings with descriptions and pricing, and interactive elements such as search functionality and course filtering.

Actodo - Task Management App(React, JavaScript, Tailwind CSS, React Router)

- Built Actodo, a task management app using React, JavaScript for seamless navigation between task lists and activity forms. Designed a responsive and user-friendly interface to add, edit, and delete tasks.

CERTIFICATIONS

- International Conference on Artificial Intelligence (NUS,Singapore)
- Workshop on Data Mining Tools (Annamalai University)
- Hardware, Networking, System Administration and Software Platforms(Chennai)
- Honors Diploma in Computer Program(Chidambaram)

INTERNSHIPS

Error Makes Clever (2024-present) Full Stack MERN

- Worked on both the front-end and back-end, ensuring seamless integration and functionality.
- Gained hands-on experience building and deploying robust web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Improved problem-solving skills and proficiency in web development technologies, contributing to the overall project success.

Etoile Technologies (2017) Full Stack JAVA

- Acquired practical experience in building and deploying web applications using Java and frameworks like Spring and Hibernate.
- Managed both front-end and back-end development, ensuring smooth and efficient integration.
- Enhanced problem-solving abilities and proficiency in Java-based technologies, contributing effectively to project success.

- Ensured smooth state management across components for efficient task tracking. Focused on delivering a clean UI/UX for an enhanced user experience.

Project-4

GreenDen (Html, Css, Tailwind Css and Java Script)

- Navigate through our beautifully designed website with ease, thanks to our intuitive layout and clear categorization.
- From succulents and cacti to tropical and flowering plants, discover a diverse selection that caters to all tastes and preferences.
- Shop on-the-go with our mobile-friendly website, ensuring a smooth browsing experience on any device.
